Extension Request Date: 6/17/13
Expiration Date: 9/17/13

PURPOSE OF SITE VISIT:

Partial Site Inspection

STATUS OF PAST NOTED VIOLATIONS: None

OBSERVED VIOLATIONS: None

The item(s) listed above were observed by Section staff and require action on behalf of the facility in order to come into or maintain compliance with the Statutes, Rules, and/or other regulatory requirements applicable to this facility. Be advised that pursuant to N.C.G.S. 130A-22, an administrative penalty of up to \$15,000 per day may be assessed for each violation of the Solid Waste Laws, Regulations, Conditions of a Permit, or Order under Article 9 of Chapter 130A of the N.C. General Statutes. Further, the facility and/or all responsible parties may be subject to enforcement actions including penalties, injunction from operation of a solid waste management facility or a solid waste collection service and any such further relief as may be necessary to achieve compliance with the North Carolina Solid Waste Management Act and Rules.

ADDITIONAL COMMENTS

1. On site to conduct partial site inspection. All three bins (forced aeration method) were complete and in use (waste was first accepted on 9/14/12). Aeration system was operational.
2. All food wastes within the bin system were covered and exhibited minimal odors. Some scavenging (birds) was noted at the site outside of the bins and was discussed with Mr. Keaton. It was stated that at the end of each working day all loose materials/wastes were being loaded back into the process and adequately covered. The facility may have to take further steps to minimize scavenging from the bins (ex. netting) if operational controls do not minimize the scavenging.
3. One main windrow was formed at the time of the inspection. Material was covered, no standing water was noted, and in general the site was well maintained and operated.

4. A follow-up inspection was discussed (possibly the first week of January, 2013) with Mr. Keaton – to familiarize NCDENR DWQ representatives with the site in advance of the future permitting process/requirements.

Please contact me if you have any questions or concerns regarding this inspection report.
